Arlington Adult Day Program (formerly Walter Reed Adult Day Health Care Center) provides a program of services and activities to help adults with functional limitations maintain or enhance their independence to remain in the community as long as possible. Adult day health care also provides support and respite to the caregivers. Capacity is 40.

A structured and comprehensive program of varied activities to stimulate and challenge the participants is provided. The program is individualized to meet each participant's specific needs. In the supportive group setting of the Care Center,

participants are encouraged to achieve their highest level of functioning.

Assistance can be provided to seniors who are physically, mentally, or functionally impaired and require some level of care and/or require companionship or need supervision. Respite care is also provided for caregivers.

[Visit our website](#) for more information.
