Berryville Residential Treatment Center offers a facility for children and youth with mild to moderate developmental and psychiatric disorders or cognitive disabilities. Goal is to provide short-term intensive residential therapeutic treatment designed to help the child build the self-management skills necessary to be successful in a community setting. The center is oriented around the needs of the child. Services include psychiatric treatment, individualized education services, vocational, clinical and medical services.

The center features a cafeteria, classrooms, a 7,500-square-foot fully equipped gymnasium. The facility is fully handicapped accessible and has an electronic security system and 24-hour awake supervision to ensure necessary support.
